

A visual workplace is a productive and safe workplace.

5S: Transform Your Workplace

The 5S visual management system makes it easy to ensure your workplace is more organized, efficient, productive and safer. The 5S system first analyzes your workspace and removes unnecessary items. From there, it organizes essential items and efficiently cleans and maintains the workspace. Best of all, these steps quickly become part of your organization's daily routine.

Visual cues are a vital part of a successful 5S program. They help you communicate information to employees using color-coding, labeling and floor markings. Floor markings help employees recognize work cell boundaries, areas requiring special caution and locations for public spaces, such as restrooms, break rooms and recycling bins.

You can get started with the 5S system today—and begin transforming your workplace.

Implementing the 5S system is even easier with 3M™ Vinyl Tape 5S Color Coding Starter Pack. See back for details.

5 steps in the 5S system:

- 1. Sort:** Retain only the items and procedures necessary to do the job.
- 2. Straighten:** Ensure each item is kept in a designated place.
- 3. Shine:** Maintain clean and organized spaces.
- 4. Standardize:** Define standards for workspaces and procedures.
- 5. Sustain:** Keep up with established standards and procedures.

When implementing 5S, think 3M.

3M™ Safety Stripe Tape 5702 combine yellow and black stripes that call for attention, highlighting low hanging objects, protruding equipment or steps.

3M™ Vinyl Tape 471 clearly marks lanes, corridors and hazardous or no-go areas in factories, warehouses and hospitals.

Looking great longer: Colors are locked into the vinyl helping to maintain its vibrant color and reduce rework.

Excellent abrasion resistance provides long service life: Durable vinyl backing resists abrasion, scuffing, moisture, weathering acids and alkaline chemicals for long service life.

Ease of application and removal: 3M pressure-sensitive rubber adhesive sticks on contact to just about any surface for fast application with no dripping, drying, or clean-up.

Resists lifting: Flexible construction stretches and conforms to curved surfaces and around corners for a reliable tight fit.
